Choosing the right course can be a daunting prospect. With this in mind, our ECG counsellors have put together education and career guidance sessions to help you better understand the benefits of a polytechnic education and which diploma would best suit your aptitude and interests. Our course teams from the six academic schools have also organised fun and interactive talks to share more in-depth information on our diplomas.

NOTE:

- All talks are estimated to be one hour in duration. Timings indicated below are start times.
- All livestream sessions will be conducted via **YouTube Live** unless otherwise indicated.
